Comfortable Cab Is Now Safer than Ever.

A work environment that is quieter and more comfortable. A cab that puts the operator rst is key to improved safety.

Comfort

Super-Airtight Cab

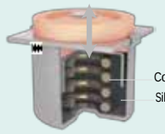
The high level of air-tightness keeps dust out of the cab.

Quiet Inside

The high level of air-tightness ensures a quiet, comfortable cabin interior.

Low Vibration

Coil springs absorb small vibrations, and high suspension mounts filled with silicone oil reduce heavy vibration.
The long stroke achieved by this system provides excellent protection from vibration.
the right side for a wide,unobstructed view.



Air Conditioner Louvers behind the Seat NEW

The large air-conditioner has louvers on the back pillars that blow from behind and to the right and left of the operator's seat. They can be adjusted to put a direct flow of cool/warm air on the operator, which means a more comfortable operating environment.

More Comfortable Seat Means Higher Productivity

Seat suspension absorbs vibration

Seat recliner can be pushed back flat

Double slides allow adjustment for optimum comfort

Large Cab Is Easy to Get in and Out of

The expanded cab provides plenty of room for a large door, more headroom and smoother entry and exit.

Interior Equipment Adds to Comfort and Convenience

Spacious storage tray

Large cup holder

Safety

A rear view camera is installed as standard to simplify checking for safety behind the machine. The picture appears on the color monitor.

Expanded Field of View for Greater Safety

Rearview mirrors left and right

Greater safety assured by rearview mirrors on left and right.

Rear view

Rear view shows the area directly behind the cab.
